Dear Mr. Haddock:

RE: ACT 015-032

I have just reviewed the January 27, 1992, amendment to chapter 14 of the Crandall Canyon Mine Plan.

The reorientation and redesign of mining panels as illustrated with the new mine map dated January 23, 1992, appears to eliminate unnecessary barrier pillars. I am also satisfied with Mr. Marshall's explanation of the need for barriers to protect mains and bleeders.

The mining plan for state leases ML 21568 and ML 21569, as presently amended, is acceptable to the Division. Please continue to advise me of any further amendments which may be proposed for chapter 14.

Sincerely yours,
